Pearson Edexcel IAL Accounting
In Accounting (WAC11)
Paper 01 The Accounting System and Costing

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www.pearson.com/uk

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question Number	Answer	Mark
1 (a)(i)	AO1 (6), AO2 (7) AO1: Six marks for transferring balances to the income statement. AO2: Seven marks for adjusting balances and transferring to the income statement.	(13)

Statement of Profit or Loss and Other Comprehensive Income
for the year ended 30 September 2018

	£	£
Revenue		430 000
Opening inventory	22 000	
Purchases	285 000	
Carriage inwards	<u>1 500</u> (1)AO1	
	308 500	
Goods taken by owner (drawings)	<u>(400)</u> (1)AO1

Forecast Statement of Profit or Loss and Other Comprehensive Income
for the year ended 30 September 2019

	£	£
Revenue (1 500 x 47 x£5)		352 500 (1)AO3
Cost of sales		<u>(70 500)</u> (1of)AO3 if 20%
Gross profit		282 000 (1of)AO2 if 80%
less		
Running costs	90 000 (1)AO1	
Depreciation- premises	3 400 (1)AO2	
fixtures	1 850 (1)AO2	
Loss on sale of equipment	4 200 (1)AO3	
Loss on sale of fixtures	2 200 (1)AO3	
Redundancy costs	<u>9 000</u> (1)AO1	
		<u>(110 650)</u>
Forecast profit for the year		<u>171 350</u>

Question Number	Indicative Content	Mark
1 (d)	<p>AO1 (1), AO2 (1), AO3 (5), AO4 (5)</p> <p>Points in favour of the change</p> <p>The coffee shop is more profitable a projected £171 350 against £9 300 Gross profit margins are high at 80%. Far higher than the grocery business. Profit has been steadily falling in recent years as competition rises. The coffee shop will reverse the trend of profit. Better use of premises and the capital of Pence.</p> <p>Points against the change</p> <p>The forecast is only an estimate therefore there is always the possibility that this could be wrong. Projected customer numbers are high which may not be achievable. Social accounting aspects need consideration. Four staff have been made redundant. Also consider loss of the grocery shop on the local community To carry out the change a £16 150 overdraft is required in October. This will increase substantially in November when the second payment for trade payables and refurbishment are required.</p> <p>Decision Candidates may be in favour or against the change of business type. The decision should be supported by an appropriate rationale.</p>	(12)
Level	Mark	Descriptor
	0	A completely incorrect response.
Level 1	1-3	Isolated elements of knowledge and understanding recall based. Weak or no relevant application to the scenario set. Generic assertions may be present.
Level 2	4 - 6	Elements of knowledge and understanding, which are applied to the scenario. Chains of reasoning are present, but may be incomplete or invalid. A generic or superficial assessment is present.

Level 3	7 - 9	<p>Accurate and thorough understanding, supported throughout by relevant application to the scenario. Some analytical perspectives are present, with developed chains of reasoning, showing causes and/or effects.</p> <p>An attempt at an assessment is presented, using financial and non-financial information, in an appropriate format and communicates reasoned explanations.</p>
Level 4	10 - 12	<p>Accurate and thorough knowledge and understanding, supported throughout by relevant and effective application to the scenario.</p> <p>A coherent and logical chain of reasoning, showing causes and effects.</p> <p>Assessment is balanced, wide ranging and well contextualised using financial and non-financial information and makes informed recommendations and decisions.</p>

Question Number	Answer	Mark
2 (a)	AO1 (6), AO2 (8), AO3 (1) AO1: Six marks for transferring balances. AO2: Eight marks for balances requiring Adjustment. AO3: One mark for calculation of depreciation.	(15)

Statement of Profit or Loss and Other Comprehensive Income
for the year ended 30 September 2018

	£	£
Revenue	48 750(1)AO1 + 8 700 – 5 250	52 200 (1of)AO2
Less		
Opening inventory	3 600	
Purchases	15 300 + 3 200(1)AO1+ 6 100 – 3 900	<u>20 700(1of)AO2</u>
		24 300
Closing inventory		<u>(4 400) (1)AO1</u>
Cost of sales		(19 900) (1of)AO2
Gross profit		32 300
plus		
Rent receivable	900 + 75	975 (1)AO2
Commission receivable		<u>2 450 (1)AO1</u>
		35 725
Less		
Wages	19 420 – 570(1)AO2 – 6000 (1)AO2	12 850
Rent, rates and insurance	600 +9 900 – 200	10 300 (1)AO2
Depreciation non-current assets		3 500 (1)AO3
General expenses		1 900 (1)AO1
Interest on bank loan		<u>375 (1)AO2</u>
		(28 925)
Profit for the year		<u>6 800 (1of)</u> AO1

Question Number	Answer	Mark
2 (b)	A02 (7), A03 (1) A02: Seven marks for correct figures in formula and calculation. A03: One mark for establishing correct credit purchases.	(8)

Current ratio	$\frac{4\,400 + 8\,700 + 200}{6\,100 + 1\,500 + 375} \text{ (1)A02} = 1.67:1 \text{ (1)A02}$
Liquid ratio(acid test)	$\frac{8\,700 + 200}{6\,100 + 1\,500 + 375} \text{ (1)A02} = 1.11:1 \text{ (1)A02}$
Trade receivables collection period (in days)	$\frac{8\,700 \times 365}{52\,200} \text{ (1)A02} = 60.8 \text{ days (1)A02}$
Trade payables payment period (in days)	$\frac{6\,100 \times 365}{17\,500} \text{ (1)A02} = 127.2 \text{ days (1)A03}$

Question Number	Answer	Mark
2 (c)	<p>AO2 (2), AO3(2) AO2: Two marks for comparing with benchmarks. AO3: Two marks for comments of valid comments on length of collection and payment periods.</p> <p>Valid comments may include: The current ratio is within the 'benchmark' level of 1.5-2:1. Therefore the liquidity of the business is sufficient (1)AO2 The liquid ratio is above the benchmark level of 0.75-1:1. Therefore there is a small element of idle funds but this is not a major issue for the business at present but this does need monitoring. (1)AO2 Trade receivables collection period is too long at 60.8 days. Effective credit control needs to be introduced. (1)AO3 Trade payments payment period is very long when it is taking 127 days or 4 months to pay suppliers. This is a risk to the supply of goods and to the survival of the business. (1)AO3</p>	(4)

Question Number	Answer	Mark
2 (d)	<p>AO1 (3) AO1: Three marks for stating possible reasons.</p> <p>Possible reasons: More money tied up in inventory Non-current assets purchased More money tied up in trade receivables (1)AO1 x 3</p>	(3)

Question Number	Answer	Mark
2 (e)	AO1 (2), AO2 (8) AO1: Two marks for recording cost per bag. AO2: Eight marks for calculating correct costs under each category.	(10)

	Option 1	Option 2
	Production	Production
	1 000 leather bags	3 000 leather bags
	£	£
Raw materials	4 000 (1)AO2	12 000 (1)AO2
Labour	10 000 (1)AO2	20 000 (1)AO2
Supervision and quality control	9 000 (1)AO2	18 000 (1)AO2
Production overheads	7 000 (1)AO2	11 000 (1)AO2
Total Production Cost	30 000	61 000
Cost per leather bag (£)	30 (1of)AO1	20.33 (1of)AO1

Question Number	Indicative Content		Mark
2 (g)	<p>AO1 (1), AO2 (1), AO3 (5), AO4 (5)</p> <p>Points in favour of Padma manufacturing</p> <p>It is cheaper on the face of it to manufacture her own leather bags, £30 compared to £35 per bag. This will increase profitability. Profitability can be further increased if Padma manufactures leather bags for other retailers as the average cost of all bags will fall to £19. Manufacture and supply will be under her control. Quality can be guaranteed.</p> <p>Points against Padma manufacturing</p> <p>The saving by manufacturing is marginal £30 compared to £35. Padma will have to deal with all production issues such as labour disputes and supply of materials. If she expands into production the lack of a proper double entry set of books will limit her ability to make management decisions. Does Padma have the cash/finance in place to embark on this development? The estimates may turn out to be understated and she may be unable to resolve production difficulties.</p> <p>Decision</p> <p>Candidates may conclude that this is a good/ or not a good development for Padma. The decision should be supported by an appropriate rationale.</p>		(12)
Level	Mark	Descriptor	
	0	A completely incorrect response.

Workings

Wood for table

$$\text{Wood } (200@£100 + 50@120)=26\,000 \text{ (1)AO3} \times \frac{150}{250} = 15\,600 \text{ (1)AO3}$$

$$\text{Wood for chairs } 26\,000 - 15\,600 = 10\,400$$

Table fittings

$$(90 @ £25 + 110@£30)= £5\,550$$

Chair fittings

$$300@£10 = 3\,000$$

Labour

Table

$$5 \times 160 \text{ hrs} \times £6 = £4\,800 \times 90\% = £4\,320$$

Chair

$$8 \times (160@£6 + 15@£8) = 8\,640 \text{ (1)AO2} \times 75\% = 6\,480 \text{ (1)AO2}$$

Depreciation

$$\text{Tables } 160 \times 5 = 800 \times £3 = £2\,400$$

$$\text{Chairs } 175 \times 8 = \frac{1\,400}{2\,200} \times £3 = \frac{£4\,200}{£6\,600}$$

Question Number	Answer	Mark
5 (b)	<p>AO1 (4) AO1: Four marks for distinguishing valuation from rotation.</p> <p>Inventory valuation – inventory must be valued at cost which is the expenditure incurred in bringing the product to its present location and condition. (1)AO1 The valuation of the inventory may depend upon the assumptions made about the value of the receipts and issues made in an accounting period. (1)AO1 where prices are fluctuating.</p> <p>Inventory rotation – rotation relates to the physical movement of inventory being received and issued from the stores. (1)AO1 In this respect a business will generally issue its oldest inventory first to avoid deterioration/obsolescence. (1)AO1</p>	(4)

Question Number	Indicative Content		Mark
5 (c)	<p>AO2 (1), AO3 (2), AO4 (3)</p> <p>Points in favour of perpetual</p> <p>The approach will allow the valuation method to issue inventory at prices which will vary in line with the method chosen.</p> <p>Periodic could result in issue prices which do not reflect replacement cost when prices are rising or falling rapidly.</p> <p>Points in favour of periodic</p> <p>It is a simpler approach because issue prices will probably be constant for the period.</p> <p>Issue(sales) prices will not be changing every day and customers will have a degree of certainty.</p> <p>Decision</p> <p>Candidates may be in favour or against the use of perpetual inventory valuation. Candidate's conclusion should be supported with an appropriate rationale.</p>		(6)
Level	Mark	Descriptor	
	0	A completely incorrect response.	
Level 1	1-2	<p>Isolated elements of knowledge and understanding which are recall based.</p> <p>Generic assertions may be present.</p> <p>Weak or no relevant application to the scenario set.</p>	
Level 2	3-4	<p>Elements of knowledge and understanding, which are applied to the scenario.</p> <p>Some analysis is present, with developed chains of reasoning, showing causes and/or effects applied to the scenario, although these may be incomplete or invalid.</p> <p>An attempt at an evaluation is presented, using financial and perhaps non-financial information, with a decision.</p>	
Level 3	5-6	<p>Accurate and thorough knowledge and understanding.</p> <p>Application to the scenario is relevant and effective.</p> <p>A coherent and logical chain of reasoning, showing causes and effects is present.</p> <p>Evaluation is balanced and wide ranging, using financial and perhaps non-financial information and an appropriate decision is made.</p>	

Question Number	Answer	Mark
6 (a)	<p>AO1 (6) AO1: Six marks for explaining terms.</p> <p>Net realisable value- The estimated receipt from the sales of the inventory. (1)AO1 Less any costs of completing the goods or costs of selling the goods. (1)AO1</p> <p>Historic cost – All assets and expenses are recorded in the ledger accounts at their actual cost. (1)AO1 The cost of the inventory is a known fact and can be verified. (1)AO1</p> <p>Realisation- Not recording a profit (1)AO1 on goods until it has actually been earned by selling the goods. (1)AO1</p>	(6)
