Level 1/2 PAPER 2: Macroecono	mic	s and th	ne Global Economy
You do not need any other mat	erial	s.	Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer all questions.
- Answer the questions in the spaces provided
 - there may be more space than you need.
- Calculators may be used.
- You are advised to show all your working out with your answer clearly identified at the end of your solution.

Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
 - use this as a guide as to how much time to spend on each question.

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.
- Good luck with your examination.

In recent years Turkmenistan has been one of the fastest growing economies. The most important sector of the economy is oil and natural gas extraction, which accounts for more than 60% of GDP. Although agriculture accounts for only 10% of GDP, it employs 50% of the labour force. Turkmenistan has seen annual GDP growth rates of 6.2%.

(Source adapted from: tradingeconomics.com)

Since March 2019 the overall inflation rate for China has been above 2%. In July 2019, China's food prices increased by 9.1% from the previous year. In particular, meat prices rose by 27% due to the spread of infectious animal diseases. At the same time fresh fruit prices rose by 39.1% as the Chinese fruit supply had been affected by severe weather.

China's central bank is called the People's Bank of China (PBOC). The PBOC has the responsibility of maintaining price stability and promoting growth through the management of monetary policy.

(Source adapted from: tradingeconomics.com)

Figure 5

(c) With reference to the data above and your knowledge of economics, evaluate the effectiveness of monetary policy in controlling inflation in a country such as China.
