1 For concerts in a theatre, people can buy tickets in the Stalls, in the Dress Circle and in the Balcony.

The number of seats in the Stalls is S, the number of seats in the Dress Circle is D and the number of seats in the Balcony is B where S:D:B=12:9:4

Given that B = 600

(a) find the total number of seats in the theatre.

(2)

The following table gives information about the cost of tickets and the number of tickets sold for a concert held in the theatre in 2017

	Cost of each ticket	Number of tickets sold

(3)

For a concert held in 2018, the total amount of money paid for all the tickets sold was \$175000

For this concert in 2018, the costs of each ticket for a seat in the Stalls, in the Dress Circle and in the Balcony were the same as the costs in 2017

Also for this concert, the number of tickets sold for seats in the Stalls was the same as in 2017 and the number of tickets sold for seats in the Dress Circle was the same as in 2017

Figure 1

Figure 1 shows a rectangular based right pyramid, ABCDE. The point O is the centre of the rectangular base so that OE is the perpendicular height of the pyramid.

$$AB = 12 \,\mathrm{cm}$$
 and $BC = 5 \,\mathrm{cm}$

$$AE = BE = CE = DE = 11 \text{ cm}$$

Calculate the **exact** volume of the pyramid.

Give your answer in the form $p\sqrt{q}$ cm³ where p and q are integers.

Volume of pyramid =
$$\frac{1}{3} \times \text{base area} \times \text{height}$$

11 A bag contains 6 five cent coins and 9 ten cent coins.

Coins are taken at random from the bag, one at a time without replacement, until the total value of the coins taken from the bag is at least 15 cents.

No more coins are then taken from the bag.

(a) Complete the probability tree diagram.

(3)

(b) Calculate the probability that exactly **two** coins are taken from the bag.

(3)

A is the event that the total value of the coins taken from the bag is 15 cents. B is the event that the total value of the coins taken from the bag is 20 cents.

(c) Determine which of the events, *A* or *B*, is the more likely. Show your working clearly.
