1 Ramadhin, Statham and Trueman formed a partnership on 1 January 2016.

1 A non-current asset costing \$20 000 was purchased on 1 July 2016. No depreciation has been charged on this asset.

The partnership's policy is to charge depreciation at 20% using the reducing balance method on all assets.

A full year's depreciation is charged in the year of purchase and none in the year of disposal.

2 Some inventory which had been valued at a cost of \$15 000 had been damaged. The mark-up on inventory is 100%. The damaged inventory could only be sold for 20% of the normal selling price.
